

APUS Zero Emission GmbH
Lilienthalstraße 2 - 15344 Strausberg

Our mission: Contribute to a climate-neutral future by making Zero Emission Air Transport happen!

Therefore, we need **YOU** as a staff member for our EASA Part 21J design organization for

Material management / process development (m/f/d)

We are pioneers in the field of zero emission aircraft and on track to bring the first certified emission free aircraft into the market. We believe that the key technologies developed by APUS will play a decisive role in the future of aviation and redefine the state of the art.

You want to actively shape and contribute to a climate neutral future?

You are a team player, creative, dedicated, thinking outside of the box?

Be part of our journey and make zero emission aviation happen as part of our team!

We are looking forward to applications from mothers, fathers, people with disabilities and people from the LGBTQIA+ community. Our office and workshop are completely barrier free. We are located just 400m from a barrier free S-Bahn station and do have barrier free parking lots.

Our transparent, dynamic, and creative way of working will inspire you. You will quickly be swept away and feel at home with us.

You care for us, we care for you! Beside many other benefits we offer:

- **Family friendly:** We support parents with flexible scheduling, Home Office and child sick days.
- **We support you:** We want you to feel at home asap and help you get settled with an apartment or assist in any bureaucratic formalities required by local or national authorities.
- **Home Office:** We offer partial remote work. Feel free to ask during the interview for the modus which fits best for you and your position.
- **Further education:** We offer a series of in-house aviation engineering related education programmes. In addition, we support you with targeted training that allows you to develop personally and professionally.
- **Accessible Aviation:** we believe that every developer of aviation should have the chance to live and feel aviation and the product.
 - **You are a pilot?** We have a pool of aircraft accessible to our team!
 - **Want to become a pilot?** We are happy to assist you in becoming a private pilot yourself! Being located at the airfield, a training flight is never more than 5 minutes away!
 - **Just fly?** We get anyone airborne, be it a business trip with our aircraft or a recreational flight with a gorgeous team member after work.
- **Teambuilding and more:** We do legendary company trips every year and create family days to get to know the team behind you 😊.
